

Code of good practice:
Table of Contents

Table of Contents

Section 1: Documents and Training

- 1.1 Document Control
- 1.2 Training

Section 2: Food Safety and Consumer Assurance

- 2.1 Use of Licensed and Approved Treatments
- 2.2 Traceability to Farm and Enclosure of Origin
- 2.3 Food Safety Plans based on HACCP Principles
- 2.4 Freedom from Unacceptable Residues of Veterinary Medicines and Treatments
- 2.5 Sectoral Collaboration

Section 3: Fish Health and Biosecurity

- 3.1 Key Principles of Fish Health and Biosecurity Management
- 3.2 Removal and Disposal of Dead or Moribund Fish
- 3.3 New Production Farms: Proximity to Existing Broodstock Sites
- 3.4 Broodstock Origin
- 3.5 Importation of Gametes and Fertilised Eggs
- 3.6 Importation of Live Salmonids
- 3.7 Disease Control: Stripping and Production of Gametes
- 3.8 Broodstock Movements
- 3.9 Site Disinfection
- 3.10 General Criteria Applying to All Fish Movements
- 3.11 Ongrowing and Transfer
- 3.12 Transportation of Fish by Wellboats and Other Vessels
- 3.13 Discharge of Water from Wellboats and Other Vessels Moving Fish

- 3.14 Area Management
- 3.15 Movements within Farm Management Areas
- 3.16 Site Following
- 3.17 Farm Management Area Following
- 3.18 Sea Lice
- 3.19 Physical Removal of Sea Lice
- 3.20 Diving
- 3.21 Harvesting Operations
- 3.22 Biological Vectors of Fish Disease: Birds and Mammals
- 3.23 Biological Vectors of Fish Disease: Cleanerfish
- 3.24 Biological Vectors of Fish Disease: Wild-caught Cleaner Fish
- 3.25 Stocking with Cleaner Fish
- 3.26 Cleaner Fish Management
- 3.27 Cleaner Fish Health and Biosecurity
- 3.28 Reuse and Continued Use of Cleaner Fish
- 3.29 Use of Medicinal Products
- 3.30 Vaccination
- 3.31 Where Vaccination Equipment is Brought Onsite from Elsewhere
- 3.32 In Addition to the Legal Requirements Above
- 3.33 Adverse Events
- 3.34 Primary Processing Operations

Section 4: Managing and Protecting the Environment

- 4.1 Fuel Oil Handling and Storage
- 4.2 Environmental Management and Monitoring

- 4.3 Redundant Equipment and Waste Materials
- 4.4 Noise
- 4.5 Lights
- 4.6 Odours
- 4.7 Containment: Environmental Assessment
- 4.8 Containment: Design and Construction
- 4.9 Mooring and Pen Systems: Design and Construction of Pen Systems
- 4.10 Mooring and Pen Systems: Design and Construction of Mooring Systems
- 4.11 Design and Construction of Pen Nets
- 4.12 Inspection and Testing of Nets and Net Attachments
- 4.13 Anti-Predator Nets
- 4.14 Inspection and Testing of Nets
- 4.15 Second-Hand Equipment
- 4.16 Fish Handling and Transfer
- 4.17 Helicopter Operations
- 4.18 Boat Operations
- 4.19 Failure of Containment
- 4.20 Debris Collection

Section 5: Fish Welfare and Care

- 5.1 Fish Welfare and Care
- 5.2 Broodstock and Sea Lice
- 5.3 Breeding
- 5.4 Backing up a Farm
- 5.5 Design and Planning of Farms, Equipment & Operating Systems

- 5.6 Water Supply and Quality
- 5.7 Lights
- 5.8 Inspection & Testing
- 5.9 Predator Control
- 5.10 Stockmanship & Husbandry
- 5.11 Handling Live or Unconscious Fish
- 5.12 Hand Nets
- 5.13 Assessing Suitability for Transfer to Sea
- 5.14 Crowding
- 5.15 Marking
- 5.16 Stocking Density
- 5.17 Grading
- 5.18 Transport of Live Fish
- 5.19 Harvest & Culling

Section 6: Feed and Feeding

- 6.1 Feed Formulation
- 6.2 Feed Delivery
- 6.3 Use of Feed
- 6.4 Withholding Feed
- 6.5 Sustainability

Section 7: Fallen Stock Management

- 7.1 Managing Fallen Stock
- 7.2 Fallen Stock Collection
- 7.3 Using Fallen Stock

2025/2026 Edition
